NOTICE

July 11, 2016

Dear Landowner;

This notice is to inform you that Algonquin Gas Transmission, LLC ("Algonquin") will be conducting blasting on its Algonquin Incremental Project ("The Project") in your area. You are being notified of this activity as required by regulations of the Town of Southeast, New York.

Blasting is scheduled to continue in your area beginning July 21, 2016 and will be periodic ending no later than August 21, 2016.

During blasting, Algonquin contractors will take precautions to prevent damage to adjacent areas and structures. Precautions include:

- Display warning signage, signals, flags, and/or barricades;
- Use of matting or other suitable cover, as necessary;
- Following Federal, State, and Local procedures and regulations for safe storage, handling, loading, firing, and disposal of explosive materials; and
- Staffing existing utilities with Operations personnel during blasting operations.

Blasting will be performed only by state licensed experts and monitored by experienced blasting inspectors. As appropriate, the effects of each discharge will be monitored at the closest adjacent facilities by seismographs.

This notice is routine and for your information. There is no cause for alarm as blasting will be conducted as specified in Algonquin's Rock Removal Plan, dated February 2014 and filed with the Federal Energy Regulatory Commission.

Should you have any questions or concerns, please feel free to call our office at (866) 873-2579. Thank you.

Very truly yours,

A handwritten signature in black ink, appearing to read "Ed. Harney".
