RE: Docket No. PF13-16-000

Dear Ms. Bose,

On behalf of the Town of Southeast, we would like the following concerns to be addressed regarding the proposed expansion of the Algonquin Compressor Station which is located in the Town of Southeast.

- Public Safety
- Potential environmental impacts
- Potential of increased noise
- Potential of increased light pollution
- Air Quality
- Any reasonable alternatives to the proposal

Algonquin Gas has been a good neighbor for years and we feel it is important to maintain this relationship. To further this goal we request that Algonquin present an Informational/Public Hearing in the Town of Southeast so that residents can understand and review the proposed Compressor Station expansion first hand.

While it is too early in the process we would also like to request Intervener status. The Town will proceed with this request once Algonquin files its application with Federal Energy Regulatory Committee.

On behalf of the Town thank you for your attention to these important matters.

Sincerely,

Tony Hay
Southeast Supervisor
