**Subject:** RE: Trees around field

Perfect, thank you Victoria and John for prompt response, it was just very confusing at the meeting their discussion regarding trees around fields etc..

I really appreciate items 1 & 2. As you can understand with young children and teenage girls my concerns with fields full of various ages of players and the anticipated volume of the public looking down on property from that field. I would not want anything showing up on social media etc.. .

**Subject:** Re: Trees around field

Hello Victoria. Her email is not very clear what she is asking about. But I can offer the following:

1. At her request, we did prepare and provide cross sections of the fields to her swimming pool. These cross sections were submitted to the planning board. In order to screen the visibility of the project fields from her swimming pool, a staggered row of Evergreen screening was added along the north side of the entire multi sport field. This screening was added to the plans about eight or nine months ago.

2. I believe she may also be asking about screening the proposed road turnaround just south of her driveway. We will add additional Evergreen screening for the proposed road turnaround.

John

Hi John,  
Can you help me answer this question?  
Thanks,  
Victoria

During the meeting the discussion regarding trees, there was a previous agreement that trees would be added on the side of the multi field to prevent the viewing of the public down onto my property where I have young girls swimming and sunbathing in the pool. Are the trees they are now addressing those trees. If I could get clarification and confirmation, it is not those trees they are referring to during the meeting
